DATE:	DAY / MONTH/ YEAR
ADDRESS:	
PRIMARY CONTACT NAME:	
CONTACT NUMBER:	
EMAIL:	

Applications will be accepted only in English. Please submit the completed application as a PDF document along with the completed primary Request for Application by 26 February 2021 to sadevelopmentfund@pepsico.com

1 Sustainable Sourcing

The agricultural supply chains are a critical lever in PepsiCo's overall sustainability strategy.

1.1 Sustainable Agriculture (max. 1 page)

1.1.1 Are you and/or the farmers you source from engaged in programs that generate measurable improvements in environmental outcomes, such as improved soil health, reduced greenhouse gas emissions, or improved water use efficiency (e.g. Field to Market)? If yes, what is the volume that can be generated by the program?

1.1.2 Are there any barriers to engage emerging farmers that you would like to highlight?

1.1.3 Are you sourcing from farmers that have achieved Global GAP certification, Rainforest Alliance (Years 6+), Unilever Sustainable Agriculture Code, or SAI Platform FSA bronze, silver, or gold verification?

1.1.4 What is the agrochemical usage on the farm?

1.1.5 Is there an integrated pest management strategy? Please describe.

1.1.6 What are the mechanisms in place to improve soil health?

1.1.7 Do you have a waste management plan and what are the mechanisms implemented?

1.2 Climate Change

1.2.1 Do you measure and publicly report your greenhouse gas (GHG) emissions?

1.2.2 Do you have an emissions reduction goal and if so, what is it? What progress have you made towards that goal?

1.2.3 Do you have a water conservation plan and what are the ways you are working to reduce water usage?

2 Crop Information

2.1 Crop Overview

2.1.1 Please provide the following information for each crop your organization produces: Please refer only to the crops that overlap with the indicated crops of interest (raisins, potatoes, oats, white maize, yellow maize, wheat, beans, sunflower, groundnuts, tree fruits, almonds or rooibos).
